

Exam Date: 3/12/2022
Registration: 416553087
Center ID: 79706

| | | |
|------------------------|---------------------------|---------------------|
| Your Score: 86% | Passing Score: 65% | Result: Pass |
|------------------------|---------------------------|---------------------|

Feedback on your performance is printed below. The report lists the objectives for which you answered a question incorrectly.

- Apply encapsulation principles to a class
- Create and manipulate calendar data using the following classes: java.time.LocalDateTime, java.time.LocalDate, java.time.LocalTime, java.time.format.DateTimeFormatter, java.time.Period
- Create methods with arguments and return values; including overloaded methods
- Declare, instantiate, initialize and use multi-dimensional arrays
- Define the scope of variables
- Describe the advantages of Exception handling
- Import other Java packages to make them accessible in your code
- Know how to read or write to object fields
- Test equality between Strings and other objects using == and equals ()

If this is the final exam in your certification path, you are required to complete the following steps.

- Visit certification.oracle.com and select your certification path to ensure you are aware of all certification requirements.
 - Note that completion of the required training and approval of the course submission form are also required in paths that require training.
- Check certview.oracle.com to confirm that all completed components are in your profile.
 - If exams that you have taken do not show up, you may have taken them under a different Oracle Testing ID.
 - Contact www.pearsonvue.com/oracle/contact to merge your IDs (provide all IDs under which you have taken exams or submitted forms and confirm which ID should be the 'surviving id').
